

Gabriel Zarafidis  
Technical Director

Gabriel graduated from the School of Electrical Engineering & Computer Science at the University of Patras and holds an MSc degree in Sustainable Energy Systems from the University of Edinburgh. He has worked as Worksite Manager in construction companies, responsible for electromechanical works. His professional experience in renewables commenced in 2007 with Power Public Corporation Renewables (PPCR) where he took on various senior roles. In November 2010, Gabriel was appointed Technical Director at Positive Energy S.A.
